CONTENT

- 01 Membrane structure modeling using the Form-Finding add-on**
- 02 Consideration of construction stages using the Construction Stages Analysis (CSA) add-on**
- 03 Entering loads including wind load application using RWIND 2**
- 04 Design and documentation**

Free Online Services

Geo-Zone Tool

Dlubal Software provides an online tool with snow, wind and seismic zone maps.

Cross-Section Properties

With this free online tool, you can select standardized sections from an extensive section library, define parametrized cross-sections and calculate its cross-section properties.

FAQs & Knowledge Base

Access frequently asked questions commonly submitted to our customer support team and view helpful tips and tricks articles to improve your work.

Models to Download

Download numerous example files here that will help you to get started and become familiar with the Dlubal programs.

Free Online Services

Youtube Channel - Webinars, Videos

Videos and webinars about the structural engineering software.

Webshop with Prices

Configure your individual program package and get all prices online!

Trial Licenses

The best way how to learn using our programs is to simply test them for yourself. Download a 90-day free trial version of our structural analysis & design software.

We offer free support via email and chat
